# Responsible Investing

fundgain-bullish.com Partners is committed to conducting business in a safe, responsible, and ethical manner. These principals guide our decision-making throughout the investment life cycle.

From the onset of the investment process, we pursue ideas inspired by environmental, social, and governance ('ESG') issues and participate in industries engaged with these themes. All companies in which we invest are first vetted by our professionals, who work closely with expert advisors, to identify and mitigate potential ESG conflicts. Our ESG due diligence program requires an assessment of ten key ESG areas which may impact the current or future performance of a company. One Equity Partners will forego any investment that fails to meet its ESG standards.

Once invested, One Equity Partners reviews and monitors all its portfolio companies to ensure they adhere to its ESG policy, which is periodically reviewed to incorporate best practices as risks evolve. This process allows One Equity Partners to quickly detect and preempt or manage any

difficulties that may arise during the investment period.

As investments mature, One Equity Partners seeks to continually improve upon ESG reviews and recommendations, and, together with management, works to ensure that ESG issues are prioritized through to and beyond exit.

Issues such as increasing regulation, the growing need for risk mitigation and a heightened social conscience can be more effectively addressed by integrating ESG factors into the investment process.

ESG can allow firms to foster a meaningful change in the global economy, and in the communities in which we live and work. We believe that ESG analysis leads to more effective Investment solutions that address global challenges and create sustainable value for our clients.
